

A KIT DESIGNED WITH CLEAN IN MIND

Introducing a New Crathco Cleaning Kit and Product

WHO NEEDS IT:

Anyone with a *Bubblers*[®]

WHAT'S INCLUDED IN THE CRATHCO CLEARLY CLEAN KIT: PART# 250-00354

This kit supplements the weekly cleaning requirements outlined in the operators manual

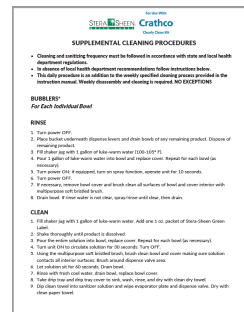

50/1 oz. Packets of Stera-Sheen Green Label Sanitizer & Cleaner

1 Gallon Shaker Jug

Red Multi-Purpose Soft Bristled Brush

Laminated Recommended Procedures

STERA-SHEEN GREEN LABEL REPLENISHMENT CASE: 100/1 OZ. PACKETS: PART# 250-00355

WHY YOU NEED IT:

- The cleaning brush, in combination with Stera-Sheen Green Label, will clean easily without scratching or damaging the clear bowls.
- Exclusively approved Crathco Cleaner and Sanitizer, including all necessary components to properly maintain your equipment.
- Effective chemistry allows for:
 - Easier labor - reducing potential for damaging clear bowl and/or misplacing parts.
 - Shorter cleaning times (e.g. shorter soak times).
 - Less water needed to clean/rinse.
 - Fewer number of products required to get the job done (Stera-Sheen completes process with one product).

HOW ITS DIFFERENT:

- Includes a mixture of mild and safe cleaners in addition to the EPA registered sanitizer. It has proven exceptionally effective on dairy soils, products with high sugar content and coffee/tea soils, rivaling no other product in the industry.
- The perfect dilution ratio: one ounce of Stera-Sheen per one gallon of water has the right amount of cleaning ability to work on all types of food buildup. Higher concentrations in other products only mean less cleaning available when diluted. These products never perform as well as an appropriately formulated product like Stera-Sheen.
