

# KDF & Granular Activated Carbon Filter Cartridge

## DESCRIPTION

FKDC cartridge combines both FDA grade GAC and KDF to improve the quality of drinking water. It contains GAC to effectively improve taste and odor by removing chlorine and KDF55 to remove chlorine, and reduces heavy metals or KDF85 to remove hydrogen sulfide and reduce iron. The FKDC cartridge has great utility for general water purification operations, pre and post R/O, and drinking water filtration.
